

Co-chairs Dembrow and Power, and members of the Joint Committee on Carbon Reduction,

HB2020 is an opportunity for Oregon to make significant progress towards reducing our dependence on fossil fuels.

We recognize that legislators must strike a balance but I urge you to enact the strongest possible measures to ensure that the true cost of fossil fuels is recognized and that funds are directed to ensure that those most vulnerable during the transition are protected.

We, don't believe any industry should be allowed a permanent exemption.

Thanks for addressing this critical issue,
