THE PATH TO HALF

JOSEPH COWLES

**BROKEN TOO IS A VALUABLE ASSET FOR PEOPLE WHO HAVE BEEN NEGATIVELY AFFECTED BY CUSTODY LAWS AND A MUST READ FOR THOSE WHO HAVE INFLUENCE IN SHAPING FAMILY LAW LEGISLATION.**

In *Broken Too – The Path to Half*, Cowles continues the story chronicled in his first book *Broken – My Fight to Stop the Harmful Effects of Custody Laws*. Through his personal experience, he learned that custody is a trigger for extensive litigation, when disputed, and it can break families apart beyond repair. Sole custody awards the major decision-making responsibilities for a child to one parent, while legally disenfranchising the other. It is a volatile arrangement— one which should not exist.

In an effort to help families facing separation, Cowles addresses the harmful effects of current custody laws, offers an alternative solution for law-makers, and details his quest to implement the changes in state family law (Oregon). Moreover, Cowles expands his fight to give children the legal right to have a voice in the court of law.

Joseph Cowles is a single parent of a loving son and two dogs. When he is not parenting or working in his profession, Mr. Cowles enjoys world travel and playing competitive sports. He has visited five continents, speaks three languages (English, Portuguese, and Spanish), and has a master's degree in business administration.
