

Hi,

My name is Dana Hutchins and I am a Multnomah County resident. I am writing to urge you to do whatever it is in your capacity to do in order to defeat HB 2959, which is a glaring violation of human rights. It is nothing short of a crime against humanity that there are so few public restrooms in the city of Portland (and presumably other parts of Oregon as well), and the few that there are have so much use with comparatively little upkeep. Even Transit Centers lack public bathrooms in this city. To then write a bill which would incur heavy penalties on people who are doing what they have to do, by biological necessity, in public because they have no other option, is absolutely cruel. I implore you to reconsider.

- Dana Hutchins
