

Good day!

Please vote for this bill. I am 73 years and seven months old. I have been changing 13 timepieces for many years and I am just tired of it. Also, I love Daylight Saving Time because the sun sets later in the day. I just feel better with more sunlight.

Maybe generations ago when we were an agricultural society that was not predominately run by mega farming and ranching companies...there was a need for Daylight Saving Time.

I don't believe it is now necessary. Arizona has agriculture but has not adopted Daylight Saving Time. I think Hawaii may be another.

Just leave it on Daylight Saving Time the year round.

If adopted in Oregon, I suspect citizens of California and Washington that live in those two states but work in Oregon will not be happy with the change. It might encourage those two states to adopt this measure being considered by Oregon.

Finally, the European Union sponsored a survey of its 17 countries and asked the citizens if they wanted to retain Daylight Saving Time and Standard Time. A major of the respondents said get rid of Standard Time and just retain Daylight Saving Time year round.

Thank you for your consideration regarding this bill.
