

I purpose we also take the initiative to make both states the same. Many people working an travel to both sides and it's literally just across a bridge. It would be a major inconvenience and simply irresponsible to have two different times for the states. Time change is and always has been something that's been 50/50. The better side being when you get more time back. I would like to make sure both Washington and Oregon are on the same time zone schedule.
