

Cap and Invest is the most important legislation to support this year. Research shows that it will add more income to household budgets across all tax brackets of Oregonians because of jobs it will create. An estimated 50,000 full time jobs by 2050. That's clean energy jobs!

We can't afford to put this off. Now is the time to support HB-2020. We're counting on you! Thiel Larson 63598 Hunters Cir. Bend, OR. 97701 [tlarson@bendbroadband.com](mailto:tlarson@bendbroadband.com) 541-388-4895
