3/11/2019

Dear recipient,

Oregon Medical Marijuana Program (OMMP) patients continue to lose access to growers, therefore loosing access to affordable cannabis. Of the OMMP patient population, 51% live on reduced income. They simply cannot afford cannabis from dispensaries, not even discounted cannabis. One inexpensive way to reduce this burden to OMMP patients would be to allow those OMMP growers using the Oregon Medical Marijuana Online System (OMMOS) to record transfers to any registered OMMP patient, caregiver or grower. Currently OMMP growers cannot make recorded transfers in OMMOS to OMMP participants, other than their designated patient.

On December 1, 2017, I gave testimony at the Oregon Health Authority (OHA) regarding the hardships that SB 1057 and HB 2198 would cause patients. I urged OHA to edit OMMOS to allow growers to transfer cannabis to all OMMP patients. In response to testimonials, the OHA said that change would require legislative action and that "in addition, growers are only able to transfer marijuana to the patient that they are growing for. Growers are unable to give marijuana to anyone other than the patient they grow for." I am required to report monthly to OMMOS and cannot report transfers to other patients.

The Oregon Cannabis Commission (OCC) reports recommendations for the OMMP to legislators. I was optimistic because most of the commission members at every OCC meeting said they wanted to hear from OMMP participants. The OCC put in their agenda. "A patient hearing tour" that then changed to a listening tour. Those listening tours never materialized. I started a survey of OMMP participants, see attached results. The survey results were submitted to the OCC and its subcommittees regularly with updated numbers. We all hoped that the OCC, in particular the OCC Subcommittee on Patient Access would act on our request to recommend to legislators to allow OMMP growers using OMMOS to transfer to OMMP patients. This request was initially written into the final draft of the Patient Access Subcommittee's recommendations. At the last moment, before the draft was finalized, the chairperson of the Patient Access Subcommittee made a motion, which passed, to change the wording to only allow OLCC/CTS OMMP growers to transfer cannabis to any registered OMMP patient. This discriminates against all OMMP growers using OMMOS.

As of last fall, 2,084 OMMP growers reported into one of two reporting systems: 1,219 growers reporting into OMMOS, and 865 growers reporting into CTS. The majority of OMMP growers, 59% use OHA/OMMOS and only 41% OMMP growers use OLCC/CTS to report. Over 600 OMMP participants in the survey support legislative change to allow OMMP growers reporting into OMMOS to transfer cannabis to all registered OMMP participants. Why did the OCC ignore this request? Please make the necessary legislative change to allow registered OMMP growers to transfer to all registered OMMP participants using OMMOS.

Respectfully,

Matthew Mendoza

To Whom It May Concern,

From 4/28/18 to 6/14/18, there were 222 OMMP participants that signed a statement to support legislative change that allows any registered OMMP grower using Oregon Medical Marijuana Online System, to record transfers to any registered OMMP participant. These 222 signatures were previously submitted to the Oregon Cannabis Commission, their Patient Access Subcommittee and the Product Integrity and Regulated Market Subcommittee.

With the strong support from these OMMP patients and the community, I started an electronic survey on 6/21/18. From 6/21/18 to 3/7/19 an additional 428 people have filled out the survey (survey questions attached at the end of this report).

1. Dear Oregon Cannabis Commission, I support legislative change that allows any registered OMMP Grower using the Oregon Medical Marijuana Online System, to record transfers to any registered OMMP participant.			Response Percent	Response Total
1	Yes, I support		95.56%	409
2	No, I do not support		3.50%	15
3	Prefer not to answer		0.93%	4
			answered	428
			skipped	0

Of those that filled out the survey, 409 supported the legislative change. The combined 409 supporters plus the 222 previous signatures brings the total to **631 people** that support this legislative change.

From 5/10/18 to 6/14/18, I collected 143 signatures asking people to answer the question: Which agency should administer the Oregon Medical Marijuana Program?

	Frequency	Percent
Oregon Health Authority	112	78%
Oregon Liquor Control Commission	1	1%
Oregon Cannabis Commission	2	1%
Oregon Department of Agriculture	2	1%
Department of Human Services	3	2%
University	2	1%
Need More Information	4	3%
Undecided or Other	17	12%
Total	143	100%

These 143 signatures were previously submitted to the Oregon Cannabis Commission, the Patient Access Subcommittee and the Product Integrity & Regulated Market Subcommittee.

From 6/21/18 to 3/7/19 an additional 428 people have filled out the survey (survey questions attached at the end of this report). Of those that filled out the survey, 354 people chose OHA, 14 people chose OLCC, 21 people chose ODA and the remaining 39 people chose not to answer, other, no oversight or a new agency.

2. Which agency should oversee the administration of the Oregon Medical Marijuana Program?

			Response Percent	Response Total
1	OHA-Oregon Health Authority		82.71%	354
2	OLCC-Oregon Liquor Control Commission		3.27%	14
3	Department of Agriculture		4.91%	21
4	Prefer not to answer		6.31%	27
5	Other (specify which state agency):		2.80%	12
			answered	428
			skipped	0

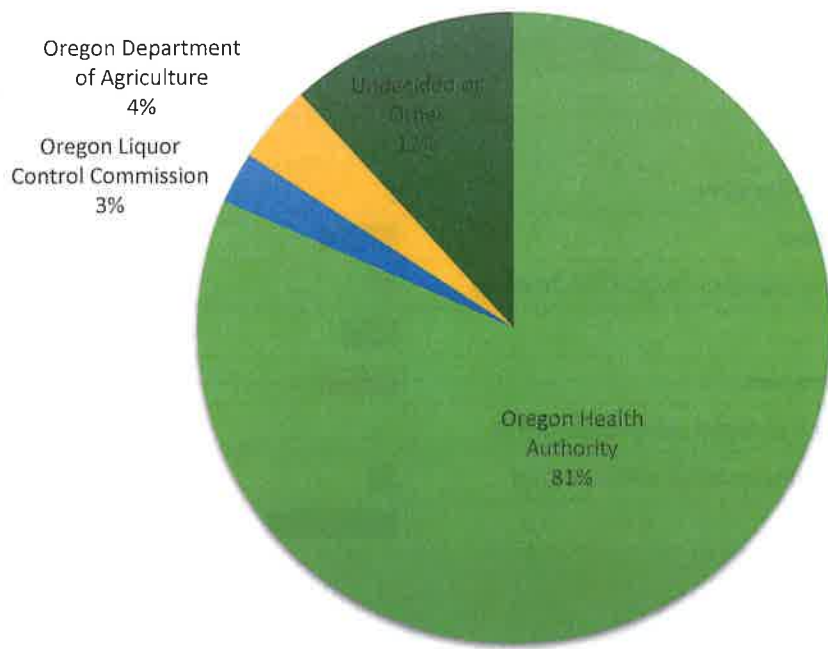

Other (specify which state agency): (12)

1	27/06/2018 03:27 AM	There is no necessity to regulate cannabis.
2	29/06/2018 04:48 AM	None
3	02/07/2018 19:53 PM	New comission
4	06/07/2018 17:51 PM	None. It's a plant
5	06/07/2018 18:34 PM	Don't have enough information to make an option
6	07/08/2018 17:38 PM	I'm not informed enough to make a decision
7	08/08/2018 18:25 PM	I think we need a whole new agency with rep
8	27/08/2018 00:30 AM	Private enterprise/ Public Charity- Project:Scarecrow
9	05/09/2018 17:43 PM	Oregon Cannabis Coalition
10	08/09/2018 20:29 PM	The public
11	19/10/2018 18:17 PM	Oregon Medical Marijuana control commission
12	05/03/2019 21:06 PM	OMMP

The combined 571 responses with the signatures and survey follow:

	Frequency	Percent
Oregon Health Authority	466	81.6%
Oregon Liquor Control Commission	15	2.6%
Oregon Department of Agriculture	23	4.0%
Undecided or Other	67	11.7%
Total	571	100%

Which agency should oversee the Oregon Medical Marijuana Program?

The survey participants come from a variety of OMMP participation backgrounds.

3. Check the box that applies to you.

			Response Percent	Response Total

			skipped	357

Other (please specify): (27)

- 1 Patient could not afford to renew due to increased costs.
- 2 New to program
- 3 Busy
- 4 Busy schedule
- 5 New patient
- 6 Card expired
- 7 Was in hospital
- 8 Regulations obviously created by people who know little to nothing about the plant, the processing or the patients.
- 9 No card yet
- 10 See comments
- 11 Na
- 12 I healed
- 13 Card not expired
- 14 Had been in hospital at time of renewal
- 15 Overbearing zoning laws
- 16 Grower could no longer carry me as patient because of new laws
- 17 New
- 18 I have kept my cards active.
- 19 First time
- 20 New card holder
- 21 I renewed my OMMP card
- 22 Non card holder

4. If your OMMP card has expired, why did your card expire? Check all that apply.

		Response Percent	Response Total
23	Card is current		
24	Not a user yet		
25	The cards expire every year!		
26	not expired		
27	In the hospital having surgery		

Comments: (25)

1	All the growers need some say so through creating a union
2	Wsas hospital at time of renewal
3	The only reason that I can think of for the State of Oregon to constantly and consistently sticking its' collective nose into a program the was not only making money but working quite well is that the state discovered how much more money they could make off of a bunch of sick people who are trying to make life a little less terrible. Particularly in light of the move towards "no opiates". People were cut off with no options at all. Cannabis should not be looked at as only a cash cow. You want the OLCC to handle the recreational side of cannabis? Great! The medical side should not be handled this way. It would be like expecting the OLCC to oversee the licensing for dispensing insulin. I do not believe that even aspirin is under the purview of the OLCC. No medical program should be.
4	I run one of the last remaining medical onyl dispensaries. We have no access to products, since there are no medical processors. We will soon close our doors for good, if we are not allowed access to rec products. We all report to olcc now. Why isn't this an option?
5	We are dying due to no safe and reasonable access to our medical cannabis. My wife and I are disabled seniors trying to live on little social security, take care of our disabled 35 year old daughter with cerebral palsy. We are trying keep the grim reaper from taking my wife and I too soon with the use of our medical cannabis over the past 10 years. We live in North Bend, Oregon. We tried to grow our own, but failed 3 times. We had a compassionate grower co-op last year, (2017) , which was a true blessing. Our cannabis medicine is out so I am reaching out with this emergency flare of hope. Again, I thank you for listening.
6	My card expired in June so I am renewing now. Maybe two week gap.
7	I healed
8	Every year Oregon lawmakers have pushed me out of grow sit after grow site to the point that I only have my residence to grow in. Now zoning makes it illegal for the 5th time. I am a single patient growing for me. What's the problem with that. Not one of my neighbors care if I grow but the state says complaints are the driving force. But as it is, it is clear that lawmakers care only for the fees, taxes, licenses costs and over regulation. It's simple. Let patients grow unhindered. Oregon is looking very handicap unfriendly. Cannabis helps me and your taking it away.
9	Na
10	I believe that if the OLCC is given control of the OMMP program it will be disastrous like the Washington program
11	Thank you
12	I disagree with the OLCC pushing Medical patients into a situation were we can no longer survive. We have been passionate about marijuana in Oregon for forever. All of these big companies and people come from out of state or out of thin air to capitalize on the market , pushing out the people who are just trying to supply and support their friends and family.
13	I use to grow for 6 patients total, including myself. I had to drop to just growing for myself after M91 passed.
14	We need to have more options to help our family and friends that truly need it when the out all these fees and paperwork
15	Not expired
16	I believe in the OMMP program and hope that the OLCC will stop trying to destroy the program. It literally saved my life. I suffer from chronic pain that causes severe depression that sometimes leads to suicidal thoughts. Cannabis keeps me grounded, pain free, and happy

4. If your OMMP card has expired, why did your card expire? Check all that apply.

		Response Percent	Response Total
17	Concerns me that olcc thinks they can do the medical portion of cannabis only a dr. Can give a prescription yet they want olcc to start what?		
18	Has not expired		
19	I have my card		
20	Former grower decided to stop providing, cited restrictions, says commercial only		
21	Please leave the medical program alone,		
22	It's important to allow our patients safe and fair access to the medicine they depend on in addition to helping growers transfer their excess cannabis to those in need.		
23	I have been confused because of having seizures... partially because of not having access to getting more medical cannabis.		
24	OLCC AND RECREATIONAL CANNIBIS IS PRICING IS GETTING PROHIBITIVE. WHAT THIS HAPPENS WHEN RECREATIONAL PROFIT GREED IS INVOLVED INSTEAD OF A MEDICAL PATIENT'S WELFARE AND ABILITY TO PAY MEDICAL RATES.		
25	I renewed my card. However I had to wait a while to do so because it was so expensive.		

8. By typing your Full name, you are stating that you are signing this document and you understand that it will be submitted as public comment to the Oregon Legislation, Oregon Cannabis Commission and its Subcommittees for them to take necessary actions.

9. Feedback/Comments

			Response Percent	Response Total
1	Open-Ended Question		100.00%	116
1	June R Buechting	Medical, should stay within the OMMP, directed by OHA. That's what people voted for. Otherwise, if the intention is to dissolve the OMMP, then the medical program should fall under the Oregon Health Authority, NOT the Oregon Liquor and Cannabis Commission. it's a medical issue.!!!		
2	Michael Schneider	Very disappointed by whats happened to medical. I voted for recreational, with the promise that it would not affect OMMP patients. These individuals have health issues, and are generally low-income. Instead of separation, we have seen the OLCC try to dominate the OMMP in every way. If one adult can give another adult up to one ounce as a gift from their 4 rec plants, what is the harm in allowing a medical grower to give medical product to another patient, especially if it is registered with a system.		
3	Joshua Denney	I support OHA regulating the OMMP program. Thank you.		
4	Bradly moss	The constant arbitrary changes in rules is making it incredibly difficult to remain in the program. I only do this to have my own medicine and to provide a public service to people who are in ACTUAL need, there is no financial gain for this just a sacrifice of time and money. Please work towards returning the program to the functioning program it used to be.		
5	Orchid Mandala	When we voted on recreational marijuana we were lied to when it said that it would not change OMMP in any way. You need to make it right or are you just into it for the \$\$??		

6	Brenda L.Sheets	Please keep medical cannabis in Oregon. I rely on it so much to keep me pain free. I can not do prescription drugs. I am disabled and had spine surgeries. I am a true patient in need of good medical cannabis laws here in Oregon.
7	William moriarty	The abandonment of my medical program as it was made my quality of life go right back down to low levels. I can't afford cannabis from dispensary and Oregon has made it as illegal to grow my own as it was before it was just legal for medical.. I am apualed at the way ya patients have been treated and ignored.
8	Jasmine Quarry	I feel that the changing of the laws every other week it seems is one of the biggest issues facing patients these days. Medical marijuana is a natural medicine and it should just be legalized across the board. The state and or government that is in control of these changes are doing this simply because there is not enough money coming into their pockets. It is taking something that the earth provides naturally and can help 100% of people and turning into a racket for selfish profitable reasons. It should have never been made illegal. If the OLCC takes over it is going to cause more harm than good. Leave it alone and let us have our medicine. This is a good thing, just because it can't be controlled solely by the federal and state governments and they can't profit doesn't mean the majority of patients should suffer.
9	Marguerite Gregoire	OMMP is and should remain a medical system regulated by a medical authority and not OLCC!
10	Debbie Adams	I think everyone should be able to get medical marijuana for health issues from anyone associated with cannabis. It's a way better alternative then pain pills.
11	Donald Randll	We the people like it the way it is !
12	Dylynn Baker	OMMP people need to have more understanding of pain control. People should be able to have the ability to help whoever they feel
13	Richard Aeh	Changes that happen are to overwhelming. To many restrictions on the grower. Basically you need to lighten up.
14	Michael d hamrick	Leave it the way it is
15	Kenneth d. Wunderlich	Don't forget where this legalization effort started, it was to help people over making money. Patients first
16	Dyche Alsaker	OHA is the proper agency to handle medical access, not the liquor control folks.
17	Justin k Svaren	I have been a long time patient and grower for many very needing patients, Oregon has severly dropped the ball from the beginning of of this legislation passing between the state straight up lying about the legislation not going to effect the medical program to all the bureaucratic crap that they put on the grows to choke them out I am disgusted and outraged!!! Shame on you seeing dollars signs and screwing the lil guy!!!
18	Sherri Watson	I will not give you my med. Card number.
19	Kathy steinbock	Leave us alone, it's our medicine
20	Kelli Russell	It seems to me that the jump in cost of an OMMP card from those receiving social program support, to those who do not, is very extreme and punishes those who fall just above an income line.
21	Bret Lamoreaux	OMMP Needs to surviveFREE of OLCC,,,, The costs that keep being added to the altruistic "hobby " of growing Cannabis are destroying the little medical grows that save the government vast amounts of money as well as help so many people enjoy healthier lives AFFORDABLY!!!!
22	Evelyn Broeffle	It is all well and good to ask for opinions but it would be even better if the powers that be would LISTEN.
23	Edward Medina Jr	I run one of the last remaining medical onyl dispensaries. We have no access to products, since there are no medical processors. We will soon close our doirs for good, if we are not allowed access to rec products. We all report to olcc now. Why isn't this an option?
24	Michael Kelley	We are dying due to no safe and reasonable access to our medical cannabis. My wife and I are disabled seniors trying to live on little social security, take care of our disabled 35 year old daughter with cerebral palsy. We are trying keep the grim reaper from taking my wife and I too soon with the use of our medical cannabis over the past 10 years. We live in North Bend, Oregon. We tried to grow our own, but failed 3 times. We had a compassionate grower co-op last year, (2017) , which was a true blessing. Our cannabis medicine is out so I am reaching out with this emergency flare of hope. Again, I thank you for listening.
25	Matthew Sugden-Kirsch	Under the OLCC, it seems as though patients, growers, and the industry as a whole have suffered in ways that may have not been foreseen. The over regulation and increased price of mass production harms only the people who really need it while those on the outer rings reap the profits to everyone's detriment. This

		needs to be viewed in the medical sense as opposed to a purely profit margin. While I agree that that some revenue needs to go back into infrastructure, the medical marijuana industry AND PATIENTS need to see some of the revenue being put back into furthering the medical marijuana industry, increasing accessibility for, and lowering the cost of receiving medical marijuana. Remember that these are real people seeking help, so please help them.
26	Gordon Mallar	This is a health issue, it should be left in the hands of the OHA.
27	Lashawna Belhumeur	It helps the people
28	Kevin Hanson	The OLCC should test marijuana for mold and mildew.
29	Angelique Penfold	I do have a card!
30	Sandra Solorzano	Fight for your medicine
31	Ericka Anne Farlow	The OLCC is not my doctor and should not have control over my medication.
32	Jaimee Barnhart	The Oregon Medical Marijuana program should be overseen by medical professionals, not licensing organizations. The idea that an organization with no medical personnel being in charge of a medical program is mind boggling!
33	Barry M. Lindholm	No OLCC!
34	Thomas Altenhofen	Give veterans cheaper, easier access. Make medical cards cheaper.
35	Chesica becerril	Would love to keep this in doc hands not liquor stores were can grow to bigger problem we love ompp
36	William h Moriarty	Oregon lawmakers have clearly said they don't support injured, ill, or handicapped citizens and care nothing for what we voted for. The law now does not resemble what the people voted in many years ago. The restrictions and new laws put in place have not been put to the vote to the people and that is morally wrong yet Oregon lawmakers keep imposing tighter restrictions to force people to but from state taxed sources. This is my medicine and to tax it is against the law. When you abolished the medical dispensaries you take away the quality organic market and medical cannabis is a much cleaner cannabis. Oregon needs to look deep and remember compassion. They have forgotten the people that built this state through years of hard work deserve to be free to make their choice without your making them broke.. we make the decision to use cannabis as mostly a less expensive way to get the same result of the very expensive pharmaceutical remedies. Wake up oregon and remember you work for us.
37	Blake Christian weems	Good job man power to ya
38	Molly Lyons	I grow for myself and 2 patients. One of my patients is an older disabled woman who can not grow her own medicine, so I volunteered to help her. The other patient is a friend without the resources or knowledge to grow. I produce just enough cannabis for the 3 of us. I will not be transferring any cannabis to a wholesaler and yet I have to pay the exorbitant CTS fee every year. I'm considering dropping my patients next year because of the high CTS fees. On another note, I will drop all my cards if the OLCC comes to oversee the medical program. All interactions I've had with the OLCC have been negative. They come from a combative, police-like standpoint and they should not be interacting with patients. They have no knowledge or compassion for medical patients and seem only concerned with collecting their fees.
39	Jonathan Morton	I usually just say legalize it but it's no longer relevant so... Fight the power!!!
40	Dillan couture	I support removing as much legislation as possible. It is a persons right to grow and consume plants and does not infringe on the rights of any other individuals and should not be stopped by the state.
41	Syreece Marie McLean	This is such an important health program. Please consider this survey set results VERY SERIOUSLY.
42	Leah Petrich	I'm advocating for medical marijuana in support of growers helping all patients in need. I suffer from cyclic vomiting syndrome, lupus and fibromyalgia, etc. it
43	Jeremy Lee	I believe that the OMMP has more information and a greater understanding of the issues that face Oregonians. OMMP should continue to govern the medical aspect of cannabis in Oregon because they have more experience than other organizations.
44	Patrick pooler	The OHA program was not supposed to be changed. It's emparative to leave this intact so people have safe free access to medicine

45	Kenneth Gregory Byers	The OMMP has been punched around by the Legislature, Law enforcement officials, private business and public county officials. It has been used and abused for money over patients care and concerns. Dirty tricks every session and year except one or two must stop, patients aren't wealthy and many are unable to advocate for themselves. Stop the madness and make cannabis law fair, easy and safe for sick debilitated Oregonians!
46	David Fitzjohn	OMMP should administer the whole OMMP program
47	Jerry D Ryan	The current system penalizes the most disabled who have the least income
48	Sara Anderson	For the people, by the people! Dont involve the OLCC! The Oregon medical program has worked great for many years and had the best interest of the patient in sight. Now it's a greed market of big businesses pushing out all founded mom and pop farmers that have lived by their organic ethics to be stripped to big pharma and companies whom hold no compassion for humans in dire need of help. People that once were able to have growers are left in pain or to an even harder battle to heal when mess are so expensive. Shame on council for giving into greed and turning a blind eye to human needs and the rights that were given as medical card holders
49	Matthew C Coates	The medical scene should have been kept the same. Patients rights should be first priority.
50	Jesse Hodges	If you allow this legislation to pass you will harm the private information of thousands of Oregon residents as well as continue to make it harder for legal patients to obtain there medicine you can not let this pass
51	Anon	It is a mistake using OLCC.
52	Ricky Paul trepanier	Needs to be changed from cat 1
53	John shadwick	Recreational and medical programs need to remain separate
54	Darla shadwick	Recreational and medical needs to stay separate
55	Erik Wickstrom	I currently grow with my card as well as my brothers, yet in the past I was able to grow for multiple patients with serious conditions such as cancer and AIDS. I was disappointed to be restricted to less patients and plant numbers because I am less able to help these people. I feel that the plant as medicine should be made more available to those who use it as such.
56	Karl wickstrom	This has helped me a lot and want to continue with common sense regulation/laws thank you
57	Meisha Baird	I think patients, growers and caregivers should have equal rights within the OMMP community. One would not go to the liquor store to see their pharmacist or medical doctor, it's not appropriate for OLCC to be the governing agency. A under qualified agency such as OLCC is bound to create problems in the future that could be avoidable.
58	Chad D Brame	It's unfair as a long time patient and grower that I cannot transfer my medicine to medical or recreational dispensaries. People like myself are the reason there are dispensaries in the first place.
59	Melicia Mollet	Please let the OLCC control liquor they have no business in cannabis
60	Anonymous	Fees are to high
61	Lily Marie Doyle	Regarding #7, I am taking this survey at the office of the Doctor where I am renewing my Attending Psychian Form to renew my OMMP card.
62	Chris Raver	Let's change the laws!
63	Tessa speer	Time to change the laws
64	Crystal Garriga	Thank you for all that you do. I have had my OMMP card for 8 years. I have always had a pleasant experience in a timely manner. I appreciate the program that allows me to have my medicine hassle free.
65	Lita Glassley	This saved my life during and after surgeries.. I also use it for anxiety, pain and sleep disorders. Thank you
66	Judy Gilpin-Baumann	Restrictions are destroying our access to our medicine.
67	Luis n bonilla	Great day
68	Nathanael McCormick	I believe the medical cannabis program in Oregon should not be governed by a liquor comission but a group dedicated to health and well being.
69	Joey D Brelsford	They are ruining the medical program
70	Dustin lamance	Very informative

71	Stacy Higgins Knapp	I'm medical but can no longer afford these benefits due to costs and fixed income.
72	Angela McDougal	Thank you for supporting patients
73	Michael Hudson	Full support
74	Christopher Stephen Keith	It's very important that the medical system is not governed by the liquor commission
75	Jeremy Hernandez	I'm renewing my card after an application was not followed through by the OLCC/OMMP.
76	Nancy Janecek	Please don't make it so hard for human beings to get the helpful medicine they need. Be nice. This is a medical alternative that works better than pharmaceutical things
77	Brandon Johnson	Controlling access patients have to medicine via the only 6 dispensaries we can shop from just inflates our prices and makes it hard for low income patients to get what they need when they need it. I do not support this obvious bottleneck of power, please consider the patients over profits. Stop putting Money over morals!
78	Ryan lankford	Cannabis heals all. The government should fuck off.
79	Clarence Arvid Ritari	Thank you for the hardwork.
80	Tammie Yoerger	Stop taking advantage of the people that started all of this.
81	Barrett Dash	This would be a good start of reforming and revitalizing the OMMP program. We need to do whatever we can to secure patients' access to meds and growers. Patients that grow for themselves with 12 or less plants should be allowed to transfer surplus flower if they don't need it. That will help patients as well med growers that would still be willing to help by donating flower. From a recent survey I took on a FB growers showed 75%+ of the respondents fall in to the "patient growing for themselves" or have 12 or less plants out of tracking. With that said, many patients and growers could benefit from the rule changes. Thanks for your time and consideration. Barrett Dash
82	Anonymous Oregon Citizen	I am a real Oregon citizen and OMMP card holder, but I don't feel comfortable about leaving my real information. I don't want negative backlash from the OLCC, who I don't trust has my best interest as a current OMMP card holder in mind.
83	Ariel Lister	Please do not allow OLCC to run the OMMP program.
84	Anonymous	I feel like hat the 1 ounce only purchase at a dispensary is wrong for medical patient
85	Anonymous	Patients require more flower than allotted
86	Rrl K. Phillips	420 isn't a crime!
87	Iren laroyce branch	Help us fix this no olcc
88	Michelle kralik	Patience need their medications an their growers shouldn't be put in questionable positions trying to take care of their patience.
89	Barrett Dash	Please let OHA continue to oversee OMMP for the sake of the patients' health and well being.
90	Michael Aaron Wise	Keep the medical program about patients not olcc retail
91	Joyce Mauceri	Olcc has no understanding of what cannabis can do for those that are on it do not leave those that use it to function in a prescription world hanging with no way to continue to use a natural way to treat health concerns that man made drugs only cover up
92	Thomas Williams	To expensive
93	Christian Jesse kitchin	Staying in this program has be n really hard because of the annual price the program is falling apart not only all medical seemed dropped hardly any shops are medical anymore and the OLCC is ruling everything that built Oregon and are history I could rant forever about this topic you ppl are evil
94	Ryan Singhurst	"Life finds a way" OLCC is not to be in charge of OMMP.
95	Victoria Wright	Olcc has no legal authority to make any decisions were patients are concerned stop trying to micromanage the program leave it up two OHA give them the opportunity to do their job

96	Joseph Hiers	Please keep the ownership of medication in the hands of the patient.
97	Kate Dillon	I want to keep cannabis ownership with the patients, not the growers.
98	Mary Jeffrey	Marijuana should be free to grow and use without regulations. Especially if you have chronic or disabling conditions..
99	Emma Jennifer Helbig	I would like to see patients still own their own rights to their cannabis, not solely their grower.
100	Anonymous	OLCC wanted sales through existing liquor stores. Medical patients need support, not penalty
101	Kelly Berends	the dissolve of patient cannabis sounds like your trying to get ride of a program that has worked for years. People should be able to own there product.
102	Mike DeTello	Lower the cost
103	Joel Schroeder	As a medical product, medical marijuana should be regulated by a medical authority. OLCC is not in the health industry.
104	Steven Troy Molesworth	I believe that the OMMP growers should be able to transfer all of their plants to the patients.
105	Grant grimshaw	Leave the medical program alone
106	Marcile j. Audette	Patients should absolutist own their own their plants
107	Kristin Joan Cummins	Thank You for all of your work to help us patients have access to our preferred medication. Before I knew there were healthier options, I was on what my neurologist referred to as 'enough heavy depressants to put an elephant down' to prevent seizures: now I am continually breaking through to 'new' abilities- just recently it was to visualize things that I couldn't when in a college art class- it's so exciting!
108	Linda Elizabeth Ahearn	Suggestion: Make all fees low so sales of any product will undercut the black market and keep compliant users lawful.
109	Susan C Sheythe	Testing is geared towards recreational sales for potency. BUT FOR MEDICAL PATIENTS, NEED TESTING DONE FOR PESTICIDES AND MOLD AND MITES AS WELL AS POTENCY. AND LIMITING MEDICAL CANNIBIS SALES WHILE ALLOWING MORE RECREATIONAL SALES IS BACKASSWARD THINKING DRIVEN BY GREED AND THOSE WHO DONT ACCEPT THE MEDICINAL VALUE OF CANNIBIS FOR SUFFERERS WHO GET RELIEF. IS IT THE AMA OR BIG PHARMA??
110	Laura A Fisher	OHA should continue with the administration, Dept of Ag should be overseeing the grows and sales of medical, OLCC needs to be out of the medical program and quit degrading the medical value of Cannabis. They should only be allowed recreational limits to including limiting their hands on a medicinal plant. Department of Ag needs to step in and save the integrity of a medicinal plant.
111	Kiaya Melton	The Medical program needs to return to the way it was before recreational use was signed into law. The new regulations and product limit restrictions make obtaining our necessary medication much harder than it needs to be.
112	Allan Jory Studley	Making it too hard for growers and patients! The doctor's fee every year is \$145! I cannot afford that on disability. Plus the \$200 fee from the growers makes them NOT want any patients. And restricting OMMP patients amounts at dispensaries, while NOT doing the same for recreational customers- is LUDICROUS!
113	Gray K Overholser	Medical patients have specialized requirements that would be inconvenienced and/or threatened by the limitations imposed by these new amendments. In addition to this, it would probably not fix the concern about large amounts of cannabis being sold out of dispensaries since the amount of recreational users in state far outweigh the amount of medical users (the latter of which has been declining for several years).
114	Evelyn G Kimbrell	It shouldn't be against the law to share what I grow. I'm not selling it.
115	Nicie Renee Hawkins	Y'all need to give us our grower back
116	Johnny Brooks	Make it propose able for other

Copy of Survey:

I support legislative change to the Oregon Medical Marijuana Program as defined in this petition, of which I have signed. I understand that this document is a record of public comment and will be submitted to the Oregon Cannabis Commission, Subcommittees and to Legislation.

1. Dear Oregon Cannabis Commission, I support legislative change that allows any registered OMMP Grower using the Oregon Medical Marijuana Online System, to record transfers to any registered OMMP participant. *

- Yes, I support
- No, I do not support
- Prefer not to answer

2. Which agency should oversee the administration of the Oregon Medical Marijuana Program? *

- OHA-Oregon Health Authority
- OLCC-Oregon Liquor Control Commission
- Department of Agriculture
- Prefer not to answer
- Other (specify which state agency):

3. Check the box that applies to you. *

- Patient Growing for Self + 2 or More Patients
- Patient Growing for Self + 1 Patient
- Patient Growing for Self
- Patient Without a Grower
- Patient with Designated Grower
- Caregiver
- Non-Patient Grower
- Doctor or Clinic Staff
- Undecided
- Former OMMP Participant who's card expired.

4. If your OMMP card has expired, why did your card expire? Check all that apply.

- Constantly changing laws and fees
- It was easier to just grow my 4 personal recreational plants
- I would have been required to switch to OLCC-CTS Tracking
- Could not get transportation to the clinic

- Could not afford the clinic visit
- Too much regulation
- Could not find a grower
- OMMP fees were too expensive
- Can purchase cannabis from dispensaries without a card
- Other (please specify):

Comments:

5. What is your name? *

First Name:

Last Name:

6. Today's Date *

7. What is your Valid OMMP Card Number? If you have multiple card numbers, just choose one.

8. By typing your Full name, you are stating that you are signing this document and you understand that it will be submitted as public comment to the Oregon Legislation, Oregon Cannabis Commission and its Subcommittees for them to take necessary actions. *
