**Subject:** Testimony in opposition to Senate Bill 451

My name is Brooke Kavanagh. I am a lifelong resident of Oregon, and I'm writing to say that **I oppose SB 451**.

It is unacceptable for a facility that burns waste and plastic, that emitted over 160,000 metric tons of CO2 equivalents in 2017 and creates toxic air in the surrounding community would be given renewable energy credits.

We need to address the environmental impacts and human health effects of such facilities and make them responsible for cleaning up their processes and emissions, not reward them and create a lack of incentive to change.

I strongly oppose SB 451 for the above reasons.

Respectfully,

Brooke Kavanagh
