

Todd Tanner <todd.tanner@icloud.com>

Dear House Committee on Energy and Environment,

As a longtime angler who loves to fish for steelhead, and who visits Oregon at least once or twice per year, I support HB 2656, The Safe Waters Act of 2019. Our waters are incredibly important. It's time for Oregon to do a better job by stopping pollution from herbicides and pesticides, and by eliminating or restricting clear-cuts. If you want me to keep visiting Oregon and spending my hard-earned dollars in your state, please protect your waters by passing HB 2656, The Safe Waters Act of 2019.

Thank you,

Todd Tanner
