**Date:** Wednesday, March 13, 2019 11:22:37 AM

---

Dear Committee Members,

It has come to my attention that you are deciding whether to support this bill, which will provide funding for more wildlife corridors. I strongly support this bill because we should do whatever we can to prevent deer and other animals from being killed on our roads. When we build overpasses and underpasses for migrating animals, we make a big difference in their survival rates. And besides, nobody wants to hit animals on our roads. It is sad and very dangerous for humans also.

Please support this bill so that our State can protect wildlife.

Thank you very much.
