

Bob Langley <boblangle@lindabob.com>

To: Representative Ken Helm, Chair of the Energy and Environment Committee

Dear Representative Helm:

I am writing to express my support and to urge your support for moving The Safe Waters Act forward through the legislative process and, hopefully, to eventual passage into law. I believe that there is no greater environmental imperative than insuring a plentiful supply of clean drinking water now and in the future. As climate change continues to threaten the amount and purity of our water, I believe that the controls on industrial logging in our state that would be put in place by The Safe Waters Act represent an essential step towards a sustainable and safe water supply.

Sincerely,

Robert Langley
