

Dear Representative,

My name is Ryleigh, I am 10 years old and I go to school in Tualatin, OR.

I have always loved school and am very good at math. Some days I want to grow up to be a computer programmer like my dad, but most days I want to be a midwife or doctor because I want to deliver babies.

Two years ago I watched my baby sister be born at home and the midwife let me cut her umbilical cord.

I am partially vaccinated and I need my education to reach my dreams. I qualified for a medical exemption before we moved to Oregon but now I don't.

Please vote no on HB3063.

Thank you,

Ryleigh
