

Dear Representatives of the Great State of Oregon,

I was reading the press release regarding the Oregonian Holocaust survivor honored by the Oregon Senate.

Below is a link to those who sacrificed their lives for the belief in vaccinations. They believed in vaccinations and paid dearly for their beliefs. These are their stories; they've been bullied, they been called anti-vax, they've been told they are hurting the herd. Where is the news headlines for their stories?

I've heard 100,000 of thousands of stories for the past two years. The hardest ones are those with the week old baby that died 24 for 48 hours after vaccinations. They were told time and time again vaccines are safe and effective.

Please take the time to see the other side of not safe and not effective. These children and their families are just as much a part of the herd as anyone.

<http://lightacandle.eu/stories>

We are over 90% vaccinated in the US and here is the health of your herd.

2014: Autism 1 in 59 <https://www.cdc.gov/ncbddd/autism/data.html>

2009: 30,000 Americans go to the emergency room each year to get treated for severe food allergies. <https://www.fda.gov/ForConsumers/ConsumerUpdates/ucm089307.htm>

2017: Pharmaceutical drug use is 48.9% of the population in the last 30 days. <https://www.cdc.gov/nchs/fastats/drug-use-therapeutic.htm>

2016: 3,600 Sudden unexpected infant deaths (SUID/SIDS). <https://www.cdc.gov/sids/data.htm>

2011: 25 million people have Asthma. <https://www.cdc.gov/vitalsigns/asthma/index.html>

2017: 30.3 million US adults have diabetes. <https://www.cdc.gov/diabetes/basics/diabetes.html>

2016: 12,500 children and adolescents under the age of 20 years are diagnosed with cancer. <https://ephtracking.cdc.gov/showChildhoodCancer.action>

2016: Approximately 9.4% of children 2-17 years of age (6.1 million) had ever been diagnosed with ADHD. <https://www.cdc.gov/ncbddd/adhd/data.html>

2014: 5 million Americans diagnosed with Alzheimers. <https://www.cdc.gov/aging/aginginfo/alzheimers.htm>

Updated 2018: Leading cause of death in the United States is Kidney disease. Kidney disease can affect your body's ability to clean your [blood](#), filter extra water out of your [blood](#), and help control your [blood pressure](#). <https://data.cdc.gov/NCHS/NCHS-Leading-Causes-of-Death-United-States/bi63-dtptu>

Now take a look at we they injected in us and our children and tell me there is no correlation to our health issues? <https://www.cdc.gov/vaccines/pubs/pinkbook/downloads/appendices/B/excipient-table-2.pdf>

Thank you for your time.

Stephanie Dorr
