Subject: Support for HB3085, HB 3090, and HB3091

Dear Committee Members,

As life long resident of Oregon I would like to share my support for HB 3085, HB 3090, and HB3091. I own and operate Short Stock Farm-a ten acre meat and vegetable farm in Hillsboro Oregon.

These bills create a path to success for Oregon's Beginning Farmers and Ranchers by providing them tools such as student loan debt forgiveness and access to low interest financing options.

Thank you for your attention to this matter and I urge your to support HB 3085, HB 3090, and HB3091.
