To Whom It May Concern:

I support Oregon House Bill 3122. As a person living with a disability in Malheur County, Eastern Oregon Center for Independent Living has been an invaluable resource for me in recent years.

EOCI has helped answer questions in regard to my Social Security Disability, provided assistance in helping me seek employment, and helped in providing me with transportation.

I also participated in a confidential eighteen week class called "Healing Pathways", specifically designed to help guide women living with disabilities acquire new skills, learn and share from other class participants, as well as keep the class workbook full of excellent information.

Please Support & Champion HB 3122!

Respectfully Submitted,

Teresa Lane

County: Malheur.
