

Lidar image of a stream network along the Umpqua River in southwest Oregon. Image: DOGAMI

Department of Geology and Mineral Industries

*Providing earth science
information and regulation
to make Oregon safe and
prosperous*

DOGAMI VISION

Through science and stewardship, DOGAMI is working toward an Oregon where:

- *People and places are prepared for natural hazards*
- *Decisions for Oregon's future always consider natural hazards*
- *Resource potential is fully understood and responsibly developed*
- *Earth science contributes to the health of our coast, rivers, forests and other ecosystems*
- *Geologic learning and discovery abound*

DOGAMI'S Value Proposition

- Outstanding Earth Science – Accessible to all Oregonians
- Natural Hazard Data – Investment in Community & Statewide Planning
- Mining Regulation – Resource Stewardship

DOGAMI STRATEGIC FRAMEWORK

Advances Mission & Vision by setting goals in 5 Focus Areas

Natural Hazards
Assessing natural hazards to help increase resilience

Earth Science
Providing geologic data & information

Resource Management
Effective, balanced regulation of resource extraction

Outreach & Education
Connecting information with Oregonians

Governance & Operations
Optimizing operations to achieve our mission

DOGAMI

Delivering Science & Stewardship

Mineral Land Regulation & Reclamation Program (MLRR)

Geologic Survey & Services Program (GS&S)

Mineral Land Regulation and Reclamation

Services:

Mineral resource permitting, site inspections, proactive management of developing issues, ensuring return of mined land to beneficial use

Clients:

Mine operators and industry, local communities, Tribal governments, state and federal agencies

Geologic Survey & Services Program

Services:

Studying hazards, geologic mapping, acquiring lidar data, outreach & education, providing data for practical and research applications

Clients:

All Oregonians – individuals, communities, state and federal agencies, organizations, universities, businesses

KEY PERFORMANCE MEASURES (KPMs)

Advances Mission & Vision by setting goals in 5 Focus Areas

Natural Hazards

Earth Science

Resource Management

Outreach & Education

Governance & Operations

KPM #1: Hazard Assessment

KPM #2:
Geologic Mapping

KPM #3: Lidar Coverage

KPM #4:
Mine Sites Inspected

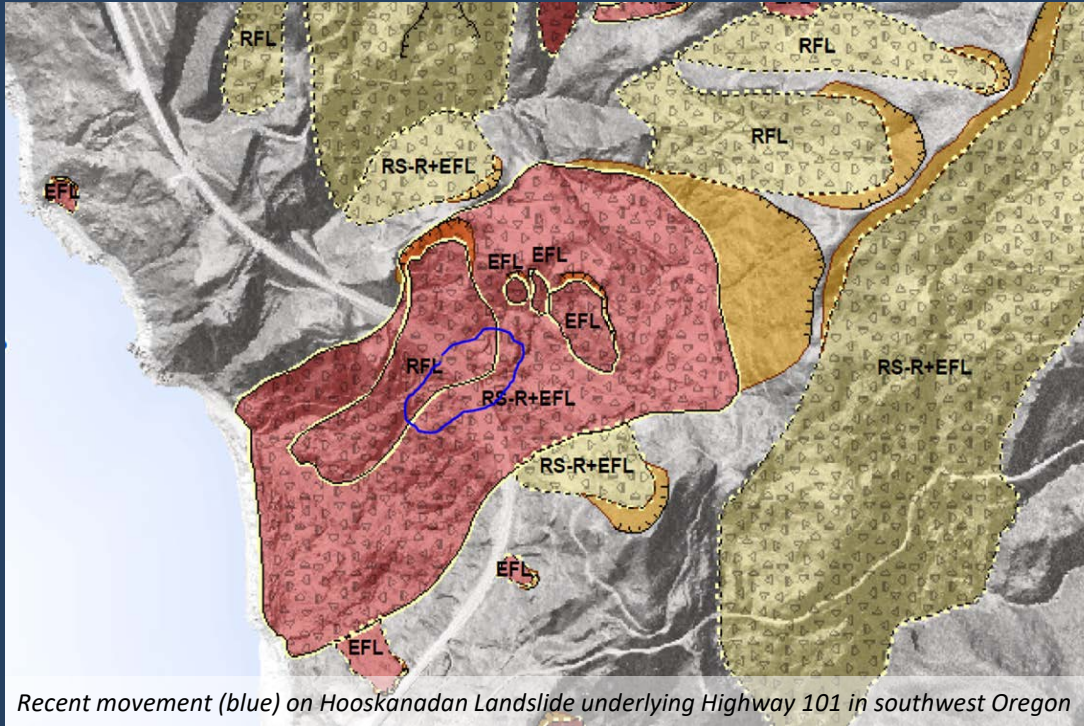

KPM #5: Customer Service

KPM #6:
Governance

KPM #1

Hazard & Risk Assessment Completion

What's Achieved:

Oregon communities have accurate, detailed natural hazard and risk assessments to help plan for future disasters and improve their resilience

How Progress is Measured:

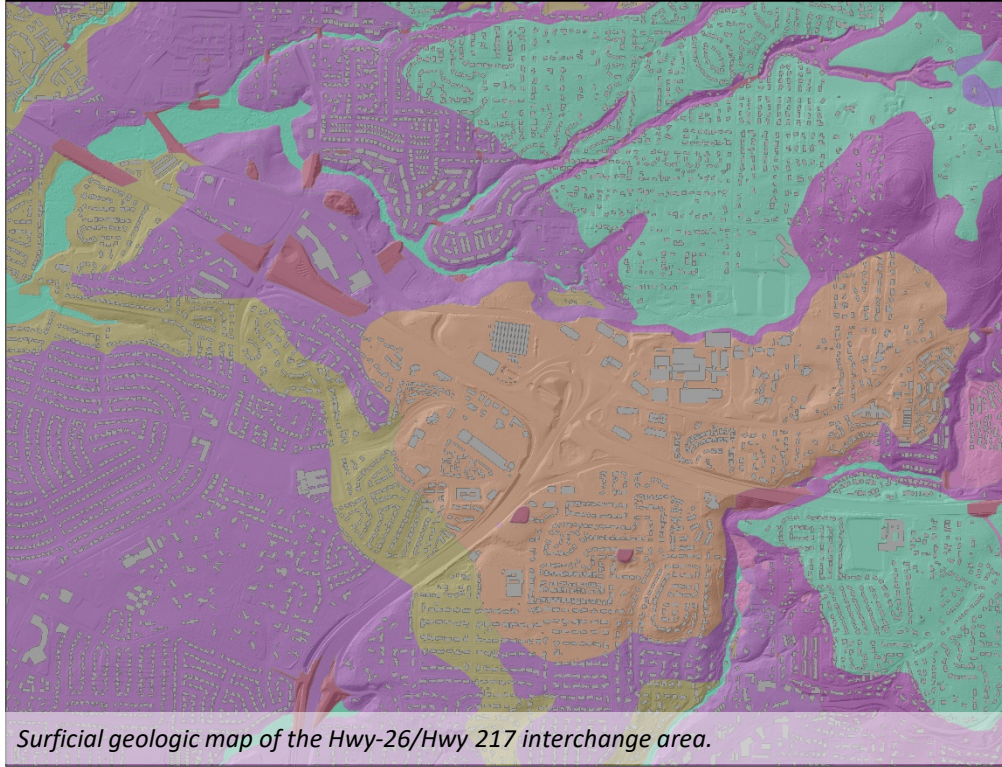

All Oregon cities have complete data

Baseline 2018: 42%

KPM #2

Detailed Geologic Map Completion

What's Achieved:

Development of geologic maps essential to understand natural hazards & resources, and mineral resource potential

How Progress is Measured:

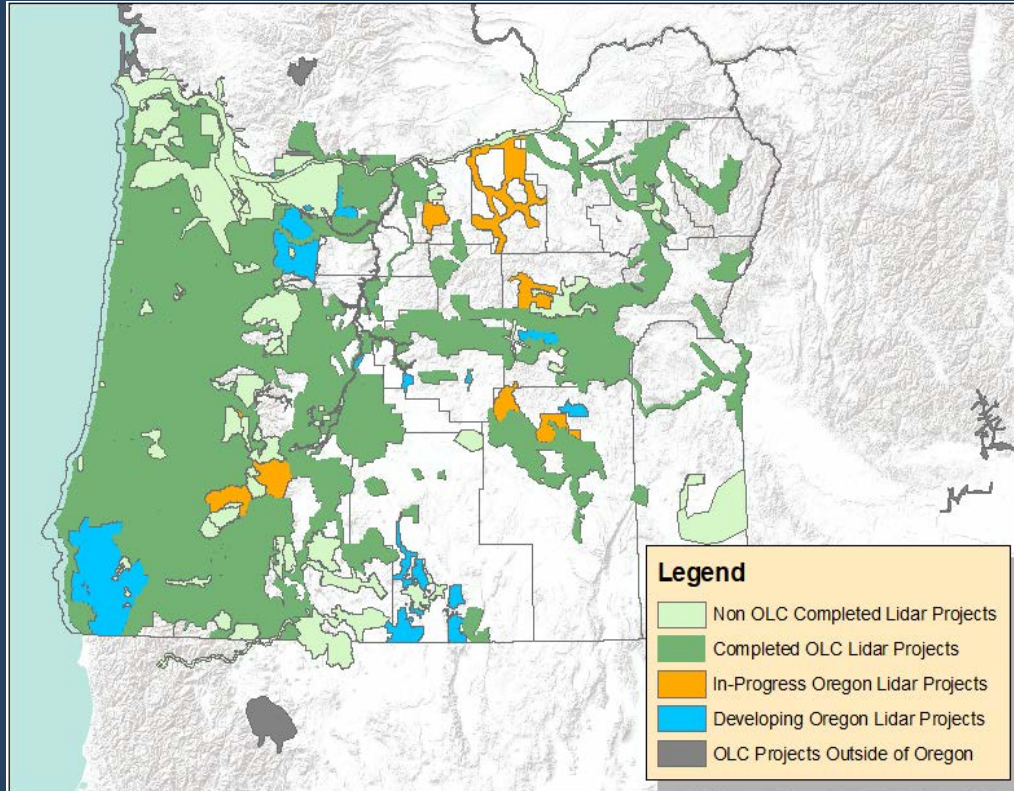

Percentage of inhabited area of state mapped with high resolution maps for local problem solving

Baseline 2018: 56%

KPM #3

Lidar Coverage

What's Achieved:

Collection of lidar topographic data used for mapping, monitoring and managing infrastructure, agriculture, natural hazards and resources

How Progress is Measured:

Percentage of state with lidar coverage

Baseline 2018: 46%

KPM #4

Permitted Sites Inspected Biennially

Stormwater control system at Graves Quarry in Molalla, Clackamas County

What's Achieved:

Proactive inspection of surface mining sites to help prevent off-site impacts or violations, and build positive working relationships

How Progress is Measured:

Percentage of permitted active sites inspected biennially

***Annual Target : 50% of sites
2018 Actual: 13%***

KPM #5

Customer Service

DOGAMI leading an Oregon Society of Soil Scientists field trip at Smith Rock State Park

What's Achieved:

Helps ensure services provided by DOGAMI meet customer needs and expectations, and identifies opportunities for improvement

How Progress is Measured:

Percentage of customers rating satisfaction with Agency services as very good or excellent

2018 Target : 95%

Actual: 83 %

KPM #6 Governance

DOGAMI Governing Board and staff touring Oregon State University's Hinsdale Wave Research Lab

What's Achieved:

Helps ensure Agency operations meet best practices, and identifies opportunities for improvement

How Progress is Measured:

Annual assessment by DOGAMI Governing Board to the set of 15 best practices

2018 Target : 100%

Actual: 100%

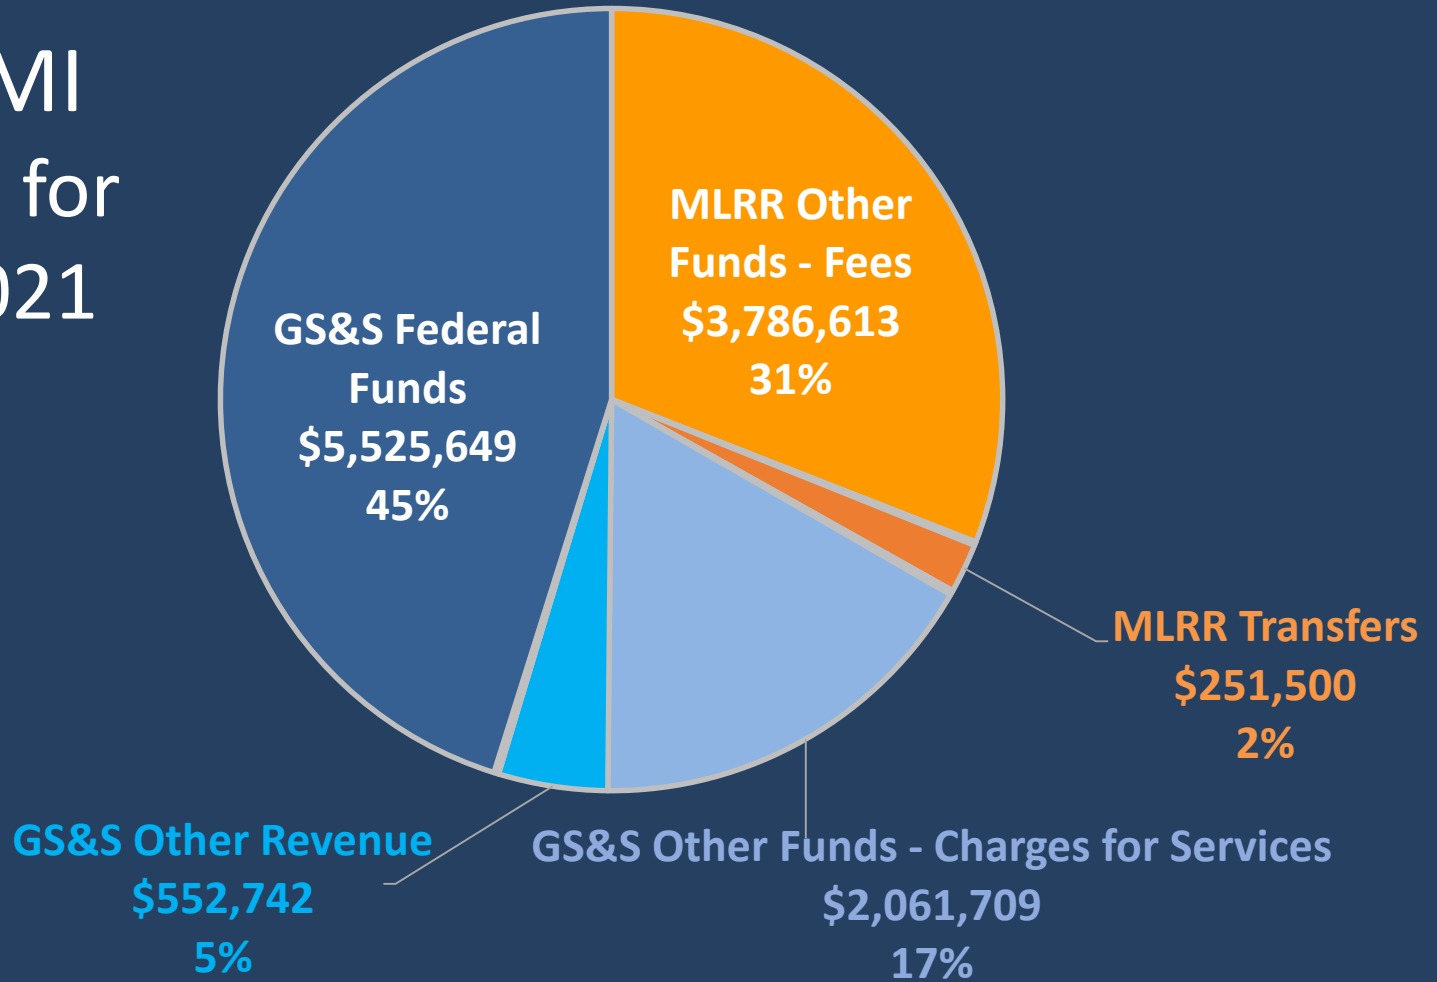

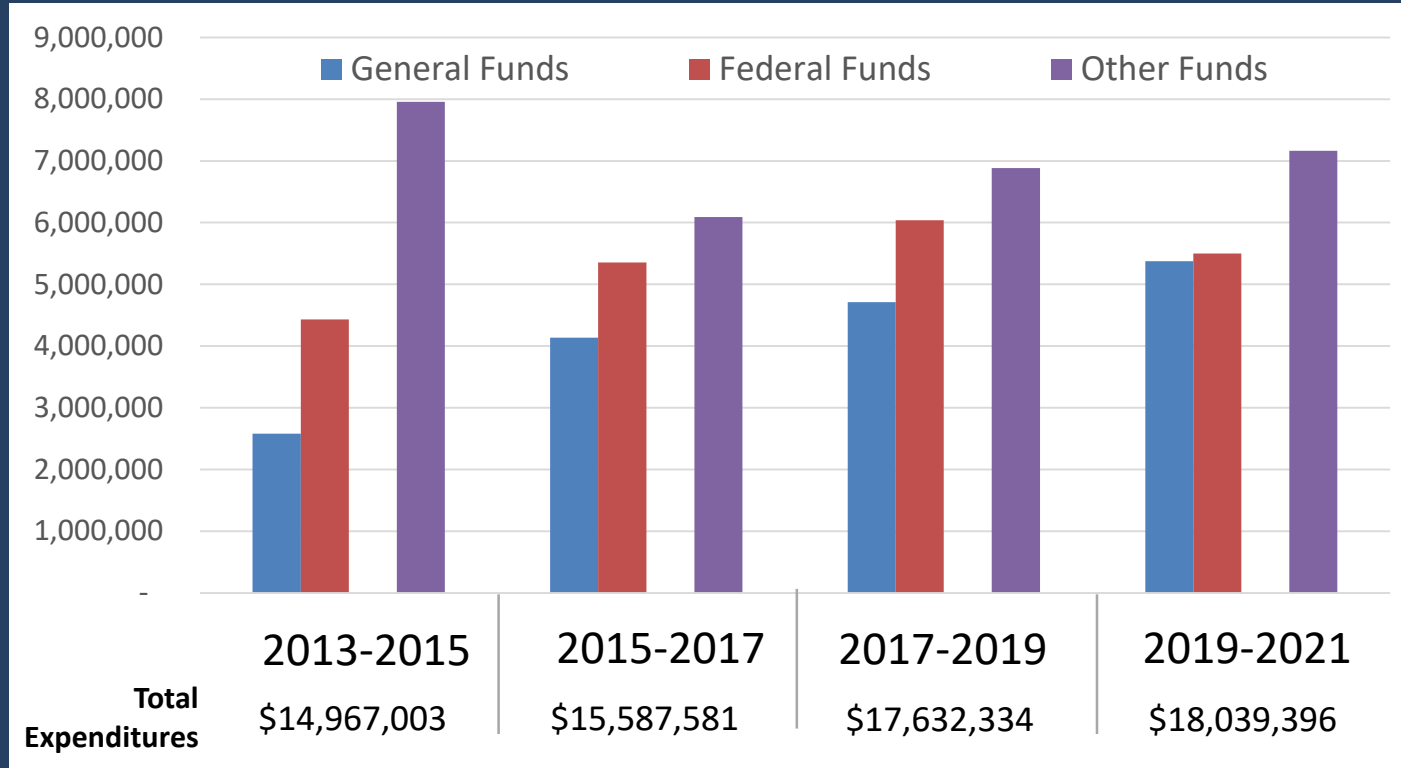

DOGAMI Revenue per Biennium

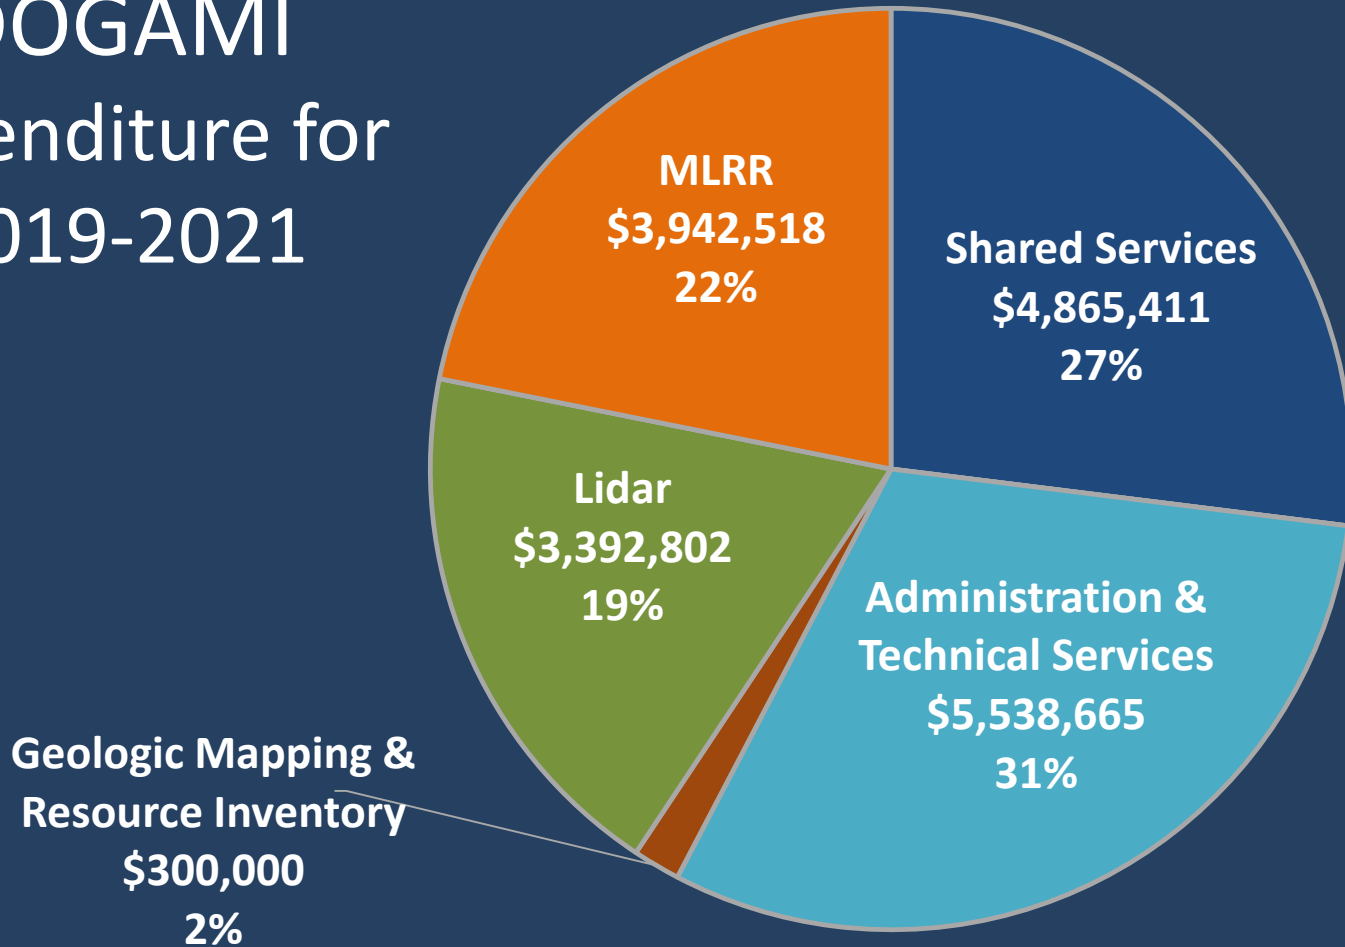

DOGAMI Revenue for 2019-2021

DOGAMI Expenditure per Biennium

DOGAMI Expenditure for 2019-2021

DOGAMI Policy Option Packages

Agency Leadership (Admin, IT, Finance, Communications) • 8 FTE

Mineral Lands • 11 FTE

Geological Survey & Services • 25 FTE

Policy Package 101

Regulation & Reclamation of Surface Mining, Exploration, Oil & Gas, Geothermal, Chemical Process Mining

Landslide Inventory & Susceptibility Mapping

Flood & Channel Migration Mapping

Earthquake & Seismic Hazards Mapping

Tsunami & Coastal Erosion Mapping

Geological & Mineral Resource Mapping

Budget Package 090

Policy Package 102

Lidar Mapping

POLICY PACKAGE 090: Tsunami Vertical Evacuation Modeling

Tsunami vertical evacuation building that is currently under construction by OSU in Newport. Source: <http://webcam.oregonstate.edu/msisouth 3/8/19>

- Evaluate vertical evacuation options for coastal schools and hospitals that are within the Tsunami Inundation Zone.
- Evaluate earthquake early warning sites, improving evacuation routes and plans, and building defensive wall structures.
- \$300,000

POLICY OPTION PACKAGE 101: MLRR Program Capacity

Delivering program services

- Field inspections (1 FTE – field staff)
- Online permitting system (1 FTE – IT staff)

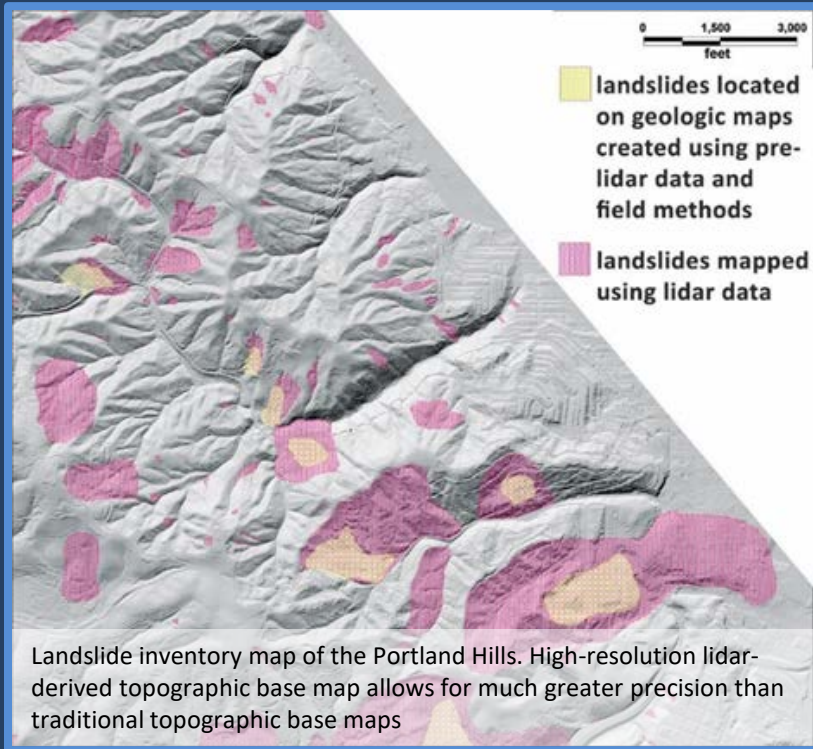

POP 101 is in direct support of KPM #4 Site inspections and KPM # 5 Customer Service.

MLRR is 100% Other Funds, Senate Bill 45 addresses required fee adjustments.

POLICY OPTION PACKAGE 102: Expansion of Lidar Mapping

- Strengthens resilience preparedness for communities unable to provide matching funds
- These funds would make DOGAMI competitive for grants requiring state matching funds
- Supports progress on KPM #1 Hazard and Risk Assessment, #2 Detailed Geologic Map and #3 Lidar Coverage
- \$300,000

Thank you
