Pedialyte ingredients vs other leading sports drinks

When your body has an electrolyte imbalance, it doesn't absorb fluids like it should. Unlike leading sports drinks, our optimal balance of sugar and sodium helps replenish fluids and electrolytes more effectively.

ELECTROLYTE SODIUM LEVELS

Product	Electrolyte Sodium Level (mEq/L)
Pedialyte	45
Sports Drinks	20

With 2x the electrolyte sodium as leading sports drinks, Pedialyte replenishes fluids more effectively**
