

hi,

we are in opposition to hb 2001...

"Requires cities with population greater than 10,000 and counties with population greater than 15,000 to allow middle housing in lands zoned for single-family dwellings within urban growth boundary"

the real folks in oregon oppose this due to demolitions that will increase, it is not very green, as the only green house and building is the one already standing,

plus why give developers more power? portland is already ruined with razing lower albina, coliseum, legacy emanuel, urban renewal tto prosper portland, and now

you have an opportunity to stop this..

reject kotek's hb 2001, as it will displace more people that struggle, poc, and rank and file folks..

who will benefit?

not the real folks in oregon....

thx

teresa mcgrath and nat kim
