Dear Chair Dembrow,

These 2 bills should never get out of committee and waste your time. Oregon's dairy farmers are very good stewards. This is just yet another "punish rural Oregonians" legislation like most of what we see coming out of this legislature. You seem to have a motto that says, if its not broke fix it until it is. These bills undermine the farm use planning regulations protecting agriculture. Please do not send these out for a floor vote.

Sincerely,

Mark Talcott
