

Chair and Committee Members of House Committee on Housing and Human Services

I forgot to mention that last Thursday at its regularly scheduled monthly meeting the Board of the ICA unanimously voted to oppose RIP and HB 2001 for the reason set forth in my email in opposition, but primarily because neither RIP nor HB 2001 deal with the root problems of affordability, demolitions and displacement of vulnerable residents.

Please enter this email in to the record of tomorrows hearing, which I cannot attend.
