

I'm writing this letter to urge you to please pass House Bill 3075. My wife and I are both public school teachers, and we rely on coordinated health insurance plans (opt-out incentive) to pay for medical care for our family. If this bill does not pass, our family will effectively take a significant pay cut next year. We already chose lower-paying public service careers to serve our communities. Please don't take our health coverage.

Regards,  
Jason Herzog
