

Angela Zehava <angela.zehava@stanfordalumni.org>

Dear Committee Members:

I am testifying in favor of HB 2007, and regulating diesel trucks in Oregon. I was extremely dismayed by the Oregonian coverage that revealed that, due to waterfalls of campaign cash to Democrats and Republicans in our legislature, Oregon is a polluter's paradise. We are a people who value our health and the health of our environment, and many of us are furious that this bill failed last session because industry bought our politicians.

My son has asthma, which is exacerbated by particulates in the air. Diesel fuel is the worst. I trust that you will not fail us this year. We are watching.

Best Regards,
