Chairs Taylor, Readon and members of the committee,
I'm Clair Klock, retired farmer from Corbett, OR and semi-retired conservation specialist at Clackamas SWCD.

I urge your full support for funding of the Oregon Watershed Enhancement board in HB 5539 and 5540. In 30 plus years of experience I have seen nothing but forward process and improvement of this agency. It is a organization of partnerships, active participation of landowners, business and local citizen groups. They deserve the requested funds and more.

Thank you
