

Hello.

I am retired so I have time to research, and I've seen dozens of vids about the dangers of 5G. Here's just the last two I viewed from professionals in the field:

Dr Barry Trower:

<https://www.youtube.com/watch?v=VJVY9Q7q3Ks>

Dr Graham Downing:

<https://www.youtube.com/watch?v=eN7UPXYX7ts>

I have children and grandchildren that I want to see living in a healthy environment when I leave this world.

Thanks for listening... and please do what you can to protect us all by passing this bill. Money and profit should not be the motive to bring about this next generation, that what some scientists in the KNOW are terming a genocide.

Sincerely,

Mary Thornton
