

Dear Chair Riley, and Committee Members Girod, Dembrow, Hass, Olsen
Senate Committee on Business and General Government.

I am opposed to SB365, Marijuana production operations are more like an industrial facility than a farming operation and they should be charged SDC. The traffic increase in many of these operations are upwards of 1,000% and they should be charged like any other business.

I oppose any attempt through amendment 1 and 2 to remove or restrict a County or City's ability to continue their time, manner, and place regulations that they have put in place, according to the needs of their County.

Respectfully submitted,
Mark Struloeff
