

March 14, 19

Dear Mr. Prozanski and Members of The Committee,

My name is Deethya Vishwanatha and I live in Beaverton city. I am 10 years old. I want to have a conversation about the Beagle Bill 638.

I believe that you shouldn't store dogs and cats in terrible looking cages. Once you have trapped dogs in cages for their whole life, and the least you could do is let them out. Come on at least let them have a chance to be free.

Now the reason why people should adopt dogs is because they need just as much love as we humans do. Dogs have feelings like us. Dogs and cats need an equal amount of love. If I were you, I would adopt as many dogs and cats as I could.

Now thank you for your time. Now you know, please pass this Bill around.

Sincerely Deethya

Dear Mr. Prozanski and Members of The committee,

My name is Destin and I live in Beaverton. I am 10 years old and I am writing to you about the Beagle Bill 638.

I believe that this is wrong how after Pets are getting tested on, they have to be killed. The reason why I feel sad about this is because I have a cat of my own. Having a pet is the best feeling ever. If you have ever had a pet of your own you will love them. Recently I watched a video with my class about beagles being adopted after being tested on and on grass for the first time and doing many other things. When I watched the video I cried.

Why I think that cats and dogs should be adopted is because they have only one life like us. When they are being tested on and then killed it is just a waste of their life. It's just like you being tested on things you don't want to be tested on and then they kill you. Would you like that? I know I wouldn't. Cats and dogs need freedom too.

Please Pass this Bill so that dogs and cats can be adopted.

Sincerely,  
Destin Chambers

Dear Mr. Prozanski and members  
of the committee,

Hi, my name is Mila. I live in  
Beaverton, Oregon, and I am 10  
years old. I am writing to you  
about the Beagle Bill 638.

I am an animal lover, and I  
especially love dogs and cats. I  
think that killing a animal after  
its had a hard life is cruel.  
People say, "A dog is a man's  
best friend." If they are our  
friends then why are we doing  
this to them? Think about it.  
Do you have a pet? If not think  
about your favorite animal. Would  
you want your pet never being  
able to go outside, or having  
cuddles, or even learning to walk?!  
It's so sad.

These are some reasons why  
animals should have a loving  
home! So please do the right  
thing and pass Bill 638.

Sincerely,

Mila

Okay, so now you know what's it's like to be one of those beagles/animals. They've spent their whole life, in a small crate, being tested on. The least you could do is give them a happy, final, resting place. This is why I think the animals should to be adopted after being tested on.

Sincerely,  
Zimra

PS, I heard that a **GOLD-FISH** was being rescued. How do you test on a tiny little fishie?!

Dear Mr. Prozanski and Members of the  
Committee,

March 14, 2019

My name is Addison Riedel and I live in Beaverton, Oregon. I am 11 years old. I am writing to tell you about the Beagle Bill 0638. I heard about the Bill because I am in the same class as the people who started this movement.

The reason I am writing to you is because it seems very obvious to me that it is not right that animals are killed after they have been tested on. When I heard about this, I almost cried. Imagine if your pets were treated and tortured like this! I mean this is literally like the Holocaust all over again. The Jewish were treated like objects just like the beagles are. Then they are used for backbreaking work just like the beagles are. Then they are just killing them! These dogs and cats have sacrificed their lives for our luxury, the least we can do is give them a chance at a normal, happy life where they are loved and cared for. Believe me, I am at school right now, we aren't being forced to write this letter. I could have chose to do some cool puzzles, but I chose to write about this because

Dear Mr. Prozanski and Members of the ~~Committee~~  
Committee,

My name is Aurora and I live in Beaverton, Oregon.  
I am 11 years old. I am writing to you about the  
Beagle Bill 638.

When I first heard about what was happening  
to these testing animals, I was horrified. I recently  
watched a video about this, and I cried. I think this  
it is obvious that animals should not be killed after  
they are tested on. Why should an animal, who has already  
had a horrible life, be killed when there not in use  
anymore? Should they not have the right to live a good  
life too?

All the animals that are being tested on should  
be loved, just like a normal pet would. I don't have  
a pet of my own, but all I can say is, I would  
gladly take one of these! I would treat one of these  
beagles like a queen!

please adopt  
me and  
my  
friends!

Anyways I believe  
that animals should  
be released after testing.

Sincerely, Aurora

March 14, 2019

Dear Mr. Prozanski and  
Members of the committee.

My name is Jacqueline and  
I live in Beaverton. I am  
11 years old and I am  
writing about the Beagle Bill  
638.

I personally dread the fact  
that helpless animals are  
getting tested on. I believe  
that this is wrong especially  
the fact that the Beagles  
are getting killed! Don't you  
think it's wrong!? I have been  
studying about the Bill and  
and I cried when I knew  
their vocal chords were cut  
out! It's just not right! They  
deserve a chance at being  
free and getting a new home!

If you think about it, dogs and  
cats deserve a life after the  
testing! They have sacrificed  
almost their entire life just  
to help us! The least we can  
do is give them a home before  
they die. If you were one of  
the Beagles you wouldn't want

Dear Mr. Prozanski and members of  
the Committee,

My name is Edrizen and I'm 11 year old  
and. I believe that this is not right test  
on dogs and cats. I also think that they  
should be adopted so they have some  
time to live outside before they die.

I know this because my teacher has a  
Pure-breed I love my dog because I have  
adopted a dog and his name is Topper. The  
is fun to play with and we also sleep  
together I talk to him and he listens.  
If you pass this bill other  
dogs and kids will get the chance  
to experience this friendship.

Dogs and cats should be outside  
and not in a cage. Please Pass  
Bill 638.

Your friend,

Edrizen Pina

Dear Mr. Prozanski and Members of  
the Committee,

My name is Thithiksha and I live in  
Beaverton. I am 11 years old. I am writing  
to you about the Beagle Bill 638.

Do you have a puppy? If you do you know  
the he or she is man's best friend. I think  
it is obvious that Beagle should be allowed  
to get adopted. I have a few reasons to  
prove my point.

One reason Beagles should be allowed to  
get adopted is because we have already  
tortured these poor Beagles and now  
we are not going to let them enjoy the  
rest of their tormented lives?!

Another reason Beagles should be allowed to  
be adopted is, Beagles have feelings too. It  
is simply unfair that we do such horrible  
things to them and then not let them out :'

Last but definitely not least, I don't think  
that it is right Beagles are so sweet and  
they will never have a chance to be outdoors  
and really enjoy their lives.

Personally I am a animal lover and so  
lets give people a chance to help Be-  
agles have the time of their lives!

Sincerely, Thithiksha Dinesh
