

Please oppose this bill for the following:

- Science is NEVER settled
- Vaccines have been ruled by the US Supreme Court to be "UNAVOIDABLY UNSAFE" (Source: <https://www.supremecourt.gov/opinions/10pdf/09-152.pdf>)
- Healthcare is NEVER ONE-SIZE FITS ALL
- It is a VIOLATION of HUMAN RIGHTS to require ANY medical procedure where there is risk
- There is EVIDENCE of vaccine INJURY (Source: <https://vaers.hhs.gov/>; <https://www.nvic.org/>)
- Vaccine manufacturers are NOT LIABLE if their product is faulty (Source: National Childhood **Vaccine** Injury Act)
- Vaccine shedding (a recently vaccinated person spreading the live virus they were just vaccinated for) is a REAL thing (Source: <https://www.nvic.org/cmstemplates/nvic/pdf/live-virus-vaccines-and-vaccine-shedding.pdf>)
- Vaccines can make people asymptomatic carriers (meaning they can have a virus and not know it because they show no symptoms, and spread it by going to school with their immune-compromised friends, and other public places) (Source: <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC5830799/>)
- This bill is being rushed based on the fear and hysteria around 70 measles cases; we are on the whole, at an all-time low of measles infection/reaction by decades, and median low over the last 10 years (Sources: <https://www.cdc.gov/measles/cases-outbreaks.html>; <https://www.vaccinationinformationnetwork.com/historic-data-shows-vaccines-didnt-cause-decline-in-mortality-rates/>)

Thank you, Marjorie & Jason Dudley (Salem, OR)
