

Hundreds of thousands of BABIES and CHILDREN are or will become collateral damage to the vaccine industry.

YOU directly have a hand in changing the course of history in making vaccine manufacturers liable again and to demand SAFE and properly tested vaccines.

Please choose to go against the grain and fight for what you know deep down is morally right regardless of what backers of GVAP, HHS (who just got sued for not provided safety studies for 30 years) and other organizations with financial gain have decided for you.

Don't use coercion. My children have a right to an education. Does kicking HEALTHY children out of public, private, Christian, charter, online schools as well as homeschool co-ops and child care facilities sound ok to you? This means many can no longer attend church. This infringes on religious rights.

FACTS: There have been only 4 cases of measles in Oregon. The true % of k-12 with nonmedical exemption to all vaccines is only 2.6%!

This bill infringes on religious rights and body autonomy rights.

My husband has lived in Oregon for 58 years, has had a small businesses here for 38 years. We will sell out and relocate if this bill passes.

Very concerned, voting, tax paying, parents and business owners in Oregon, Jeff and Alicia Turner.
