

Thank you of the opportunity to speak in support of HB 2007 at the public hearing in Salem yesterday.

As promised, I am writing in follow up with important resources and information that may be helpful as you consider HB 2007 and the requested amendments to strengthen it. I realize this is more information than any of you will have time or energy to dive into. However, I wanted to make sure you knew the reoursces are available and had them at your fingertips for reference as needed. All of the reports, maps and data sets compiled by [Portland Clean Air](#) below are live links.

I have also attached simple spreadsheet that details the truck counts of the Portland tri-county area.

Thank you again for your consideration of HB 2007 in addressing the eminent diesel health crisis in Oregon.

Respectfully,
Beven

As one of the few schools in Oregon devoted to students with learning differences and the only one focused exclusively on middle school, Bridges offers its 5th through 8th grade students small class sizes, differentiated instruction, and a safe place to learn and grow.
