

Dear Chair Barker,

We need a reliable workforce. We cannot afford H2A workers . If we have ten people on leave where will be get employees who want to work on the farm .. We have worked diligently with our employees from 20 to 35 years to keep them and to hire their children. We will not be able to farm with this added burden. Put yourselves in our place. We can barely pay insurance for ourselves and then add this .

Sincerely,

Jack Siri
