

Kelly O'Hanley <kohanley@gmail.com>

I attended the hearing on March 12 - but due to the larger turnout, was not able to testify.

I am a physician (OBGYN) and also hold a degree in public health. I have helped teach at Harvard and Stanford Universities. I have worked in over 40 countries worldwide.

For the sake of drinkable water - not to mention climate impacts and salmon protection - please move this legislation forward! Oregon is lagging compared to other states; I suspect the timber industry has had a quite a bit too much influence.

Thank you,
Kelly O'Hanley, MD MPH
