

Dear Chair Barker,

As a CPA who works with small businesses, this far-reaching proposal will hinder business growth of an important segment of Oregon's economy. There are multiple points that I find unreasonable: it applies to businesses with only one employee; it mandates 32 weeks of paid leave (too much time & it should not all be paid); it creates a new bureaucratic layer of state run insurance. I urge you to vote NO on HB 3031. Thank you.

Sincerely,

MaryAnn Soukup
