ISSUES DISCUSSED:

EFFECT OF AMENDMENT:

-1 Requires OHA to align data collection with the data collected by the Centers for Medicare and Medicaid Services. Specifies data that must be reported. Requires OHA to collect data in the most cost-effective manner. Requires OHA or third party contracting with OHA to periodically validate the data reported and collected in the All Payer All Claims (APAC) database. Requires OAH to annually report to the Oregon Health Policy Board and the Legislative Assembly on the results of the validation.

BACKGROUND:

The Legislative Assembly established the All Payer All Claims Database (APAC) in 2009 as a tool to measure health care costs, quality, and utilization. APAC houses administrative health care data for Oregon's insured populations. It includes medical and pharmacy claims, enrollment data, premium information, and provider information for Oregonians who are insured through commercial insurance, Medicaid, and Medicare.

Senate Bill 841 requires the Oregon Health Authority to compile, publish, and make publicly available a health care expenditure report concerning expenditures related to medical assistance, Medicare, commercial insurance and self-insurance.
