Subject: Support for SB 927

To the Honorable Kate Brown:

I hardly support the Passage of SB 927. Living here in Portland it is heartbreaking to see our/your history being demolished one house, one tree, one small business, at a time.

As a progressive state, we should be doing everything possible to stop the Displacement of low income and minorities in favor of making money. I understand leading is hard but we should also be better as we lead by example.

Thank you in advance and look forward to the passage of this bill.

Regards,
Michael W. Gnat
