I would like to know who thought up of Bill 3031? And why are they in office? this bill would absolutely destroy the economy and jobs in the state of Oregon! This bill is a travesty and would destroy a lot of hardworking folks and their families and would eliminate small businesses throughout the state!

Please help destroy this bill before it ruins the state of Oregon worse than the path we're already going down!

Thanks for your time.

Sincerely

Gregg Sherrill
