

There are two pieces of legislation that would allow 16 years to vote. This is madness. At this age they are still considered children in the eyes of the law and you want to allow them to vote. Utterly and completely ridiculous. Don't any of you have better proposals to spend your time? If you feel so confident they have a right to vote, then put a rider on that piece of legislation that they can be treated as an adult when they commit a crime. That if they are found guilty they go to the same jail as adults. Also remove all other restrictions in place that make them in a "minor" class. They want to be adults, fine then make it 100% across the board.
Vote NO on this absurd thinking.
Thank you Judith Clough
