Good morning,

as a fourth generation Oregonian I am naturally proud of my state. Oregon has a long, and responsible history of gun handling, and ownership. I strongly urge that regardless any viewpoints on gun ownership or rights that all partisan bickering be set aside. Oregon SB-801 provides a clear, safe, and responsible requirement that Oregon's children be taught proper procedure when they encounter a gun. As a parent I firmly believe in teaching my child responsible behavior. This message may not make it all of Oregon's children.

In our culture young children and young adults see a constant barrage of violence. It is often glorified, and it looks cool. Children emulate observed behaviors. Please, for the children. PASS SB-801

Regards,

Dan Wade
