

Dear Committee Members,

The outrageous proposal we've yet heard floated is SB 838 which grants 16 year-olds the right to vote. We restrict many activities of youth due to immaturity and lack of wisdom. Driving, military service, right to contract, firearms, alcohol, marijuana, you name it. They have little "skin" in the game, and little requirement or ability to pay the bills. This proposal comes off as a cynical play for political interests. What's next? Drivers licenses and voting rights for illegal aliens? Leave it alone.

Daniel Brierly
