

This bill would only harm law abiding citizens of Oregon. Increasing gun free zones only endangers innocent people. It does nothing to prevent a deranged person from killing innocents. History of Mall shootings, school shootings in Oregon and across the country dramatically shows this fact. The current background check system is fair and sufficient. Also to make gun storage in private homes, such that homeowners cannot defend themselves is ludicrous. Finally to enact more red tape for legal concealed carry only penalizes we the legal and responsible citizens of our state.

Vote No on this proposed legislation.
