Subject: Re: Support for HB2659
Date: Wednesday, March 27, 2019 1:15:44 PM

As a registered voter and long-time Oregonian, I'm writing to express my support for HB2659 and to encourage all House members to support the bill. It is imperative that we protect our forests in Oregon. This bill would not affect small landowners, but rather the large corporate timber companies that are decimating our forest lands, contaminating the environment with toxic chemicals, and contributing significantly to global warming. Please support and pass this bill. Thank you.

Sincerely,
Brenda C. Kluhsman, PhD
