

I've read through the entire 44 pages of this bill. While i think most efforts directed at law-abiding gun owners are a waste of time (there's little evidence they work), I'm willing to at least try and understand what is being proposed.

I have issues with the following provisions in this bill as "amended":

Allows gun stores to refuse to sell firearms and ammunition to young adults (As Bi-mart, Walmart and Fred Meyers have done in violation of the law.)

Exonerate gun dealers who violated our anti-discrimination laws, even if they did it *before* this bill was passed. (Get out of jail free card for corporations that broke the law.)

Require that my self defense firearms be locked up. Under this bill you can be prosecuted even if you did lock up your guns with a cable lock if someone has "access" to a device to defeat the lock. This is anyone who has access to almost any tool.

Hold gun owners responsible for two years for guns they "transferred" unless they could prove the transferred gun had a trigger or cable lock. How do I do this?

Hold gun owners responsible for crimes committed with guns that were stolen from me.

Ban "undetectable firearms." What are these, exactly?

Allows cities, counties, metropolitan service districts, airports, schools, colleges and universities to ban CHL holders from "public buildings." As written this bill does NOT say buildings *owned* by those entities. It says "public buildings." Under this bill, as worded, a school in John Day could forbid me from carrying my firearm in a public building in Troutdale.

Ban CHL holders from airports. No, not just the terminal. But the parking lots and grounds "adjacent" to parking lots. Public places are a favorite target of terrorists and those looking for *multiple disarmed targets*! Picking up your spouse at the airport? Go to jail. Seems over-the-top, with little justification.

With Respect,

George Orr
