

The insanity of the Oregon Legislature is violating law bidding citizens constitutional rights! This is the equivalent of arresting sober drivers because they are operating during a high drunk driving time. Why must you punish the citizens and reward the criminals. The welfare of my children, grandchildren wife and all my loved ones are at stake with these crazy bills trying to take away my/our constitutional rights. I am a Veteran of the United States Marine Corp and I did not lay my life on the line only to have the liberals of this state trample on our right to benefit loud minority. This is unfair and I beg of you to not pass this lunatic amendment.

Thank you,

Brent Roush
