

Facts are facts...

Disarming or working to disarm or working to make law abiding citizens legal lives difficult to carry firearms which is a constitutional right, only gives an advantage to:

- * Criminals
- * tyrannous governments that want to control the people.

Just stop....

Stop being children...

- * Over 115 people die each day in the United States due to the use of cars. Start banning cars.
- * After a psychopath goes on a mass shooting spree, government always wants to take away guns from law abiding citizens... Law abiding citizens did not do the mass shooting, the gun didn't do the mass shooting, the mentally unstable person did.

Finally: If gun restrictions work.... Explain Chicago.

Thank you.

Bobby Merwin
