

Oregon's history has always supported the hunters and sportsmen. This SB 978 is an affront to all good citizens. The wording opens the door to numerous "other" rules that the proposers are hiding. Why not put the blame on the judicial system and politicians who are soft on criminals. This IS NOT a sanctuary state and the bulk of the land here is owned by good people who are law bidding citizens who support our law enforcement AND we value our firearm rights as it is our final line of control over any out of control government. That is why our forefathers put it in the Amendments.

Do not turn our constitutional rights over to those who have not shared the price of freedom and stand ready anytime to fight for it. This bill is a personal attack for politics and power control, not for the good of the people.

Please vote AGAINST SB978.

Thank you.
