

3/28/2019

Representatives of the People of Oregon and the United States of America,

The bill 978 is a violation and a slap in the face of all law abiding citizens of Oregon. You know as well as I, no criminal will follow any of these outrages amendments. This is a clear violation of our constitutional rights as provided by the Federal Constitution . It is time you take a look at laws that focus on the mental health not the weapon being purchased. The mental health know by a persons teachers, working associates, and relatives. A pre-qualification for purchase of a weapon. Not this violation of our Constitution.

Thank you,

Douglas L Perle
