

Hello Oregon Representatives of the People!

Dear Representatives

Today, we Oregonians are under a barrage of new bills that are aimed at our 2<sup>nd</sup> Amendment freedoms and self-protection rights. When the atrocity of others invokes terror onto law abiding citizens are now being stripped of our Constitutional Liberties.

**HB 2251** Age for purchase or a firearm transfer to 21, but reduce the age for voting to 16? How could a young Oregon veteran not be able to purchase a rifle legally or promote youth gun safety at our local gun club?

**HB3223** Simply put, with the bill's terminology "assault weapon" this will include most common firearms that are used for hunting and even personal protection. To comply with this bill will require gun registration which history has shown can and would assume that gun confiscation would be the next inevitable step in this process. Gun seizures like in New Zealand are reality.

**HB3265** Magazine capacity restrictions. This bill would limit the ability to hunt and even self-protection issues, 5 rounds can be life threatening against an attacker.

**SB 925** CHL restrictions are a violation of the second amendment. Why do the Oregon Legislators, Governor and public officials have armed guards but school children can't?

**Red Flag Laws** This law is unconstitutional and is a direct infringement of the 4<sup>th</sup> Amendment and violates our due process laws!

To obtain a weapon we all have shown our legal ownership with a background check. This proposed registration process is government overreach of the extremes against your fellow Oregonians.

As a law abiding gun owner and an avid sportsman, this law will make me a felon, which goes against Constitutional Law the 2nd Amendment and will revoke my God given rights to self protection. Why is it that we never hear of laws against the bad guys only the good guys? This is biased legislation and will not even be voted on by the people.

Can you please explain your rationale on why you think these laws are a "Common Sense" laws because along with over 4,000 other citizens in protest Salem on Saturday would tend to disagree?
