

To whom it may concern.

The lack of common sense amazes me. In you're haste to take away our second amendment rights is appalling. Make every day law bribing citizens pay for the crimes committed by mentally deranged people. SB978 is a perfect example of laws written without any thought process or common sense. I live in rural Oregon. If I can get local law enforcement to show up at all that would take at least 45 minutes to show up. I have firearms I my home for home protection. I'm sure I will be able to tell an intruder to wait till law enforcement shows up or to wait till I unlock my gun before before they continue. Sounds stupid doesn't it? So bottom line is you bill leaves me defenseless. There are from what I have read several bills are being presented with the same lack of thought and common sense written by the same dull minded people.

Stop trying to make criminals out of law bidding citizens.

Yours truly
