

This bill is insane because you do not allow people to protect their family if an intruder invades their house because they have to have their gun locked up. It's not like intruders going to wait for you to get your gun to defend yourself. Also with these Gun free zones, you are just inviting more people that don't follow the laws to come into schools and start shooting. Having a good person with a gun helps the chances of more people surviving. The reason why I'm saying this is because a person with a gun can kill a lot of people before the police get there. So put all these laws are pointless because you are just making it harder for law-abiding citizens.
