

Wow....Not much common sense in this bill...SB978. So if you sell your car and a year later it's stolen and kills someone you're going to be responsible ?

That's about the same thinking.

Oh yea....lock up your defensive firearm.....That's a real good idea. So now you have NO DEFENSE !!! Are you going to turn off the air bags in your vehicle and cut off the safety belts.

You have come up with some ideas but most of them are BAD.
