

House Healthcare Committee Members,

I would like to thank those of you who already oppose this bill. Thank you for standing up for the rights of education and parents rights and I encourage you in your vote NO on HB 3069.

To those who are undecided or support HB 3069, I would like you to vote NO. I believe all children should have a right to their education and I believe in parental right to informed consent to any medical procedures for their child. It is important to me to note that I am personally not anti vaccination, but I am for parent's rights to be informed about the pros and cons and to decide what is best for their child.

Thank you,
Brielle Rondeau
